

TOPLINE 2023

TOPLINE

Movement & fun in the great outdoors!

The beleduc TopLine consists of the vehicles from TopTrike and the new outdoor products from TopPlay for creative role play. 'Playing outside' is more important than ever and with the new TopPlay products this is our focus. Discovering nature with children and being active in the fresh air. Playing and learning is even more fun outdoors and new play ideas often come up, quite freely and creatively. Movement is fun and important for healthy and active children. With the innovative vehicles of the TopTrike line, we promote motor skills in a playful way and integrate sports and play into everyday life.

New
concepts on
the pulse
of time!

Supporting children in the best possible way today means: Creating incentives, ideas and creative products that combine playing and learning in the best possible way and are a lot of fun at the same time.

Innovations in role play and vehicles

From the first scribble to the final product

“For me it’s important that a toy always has a clear challenge character and is self-explanatory. I am very happy when children are naturally encouraged to move outside in nature and use their imagination to discover new ways to play.”

Ansgar Honkomp, Senior Designer beleduc

MOBILE GAS- & SERVICE STATION

The TopPlay „Mobile Gas and Service Station“ is the perfect addition to all TopTrike vehicles. Children can playfully refuel their vehicles and develop role-playing games. Great details such as 2 fuel guns, dials for prizes or for setting the number of rounds in the car race are included. Also plenty of space for buckets, sponges and oil cans ... everything you need for a gas and service station. The writeable chalkboards make this innovative product a highlight.

ATTENTION:
The kiosk must be anchored with 4 soil nails. (4 big nails included). Also possible with standard screws in concrete.

62040
KIOSK 4 IN 1

Out onto nature! With the TopTrike Kiosk, role play can now be moved outside. Several children can play there at the same time because the kiosk offers enough space. There are many play options here, such as a food stand/market, kiosk, ice cream stand or snack bar/restaurant. Playing encourages imitative and imaginary play, fantasy storytelling, role play and creativity and it's a lot of fun. A highlight for any kindergarten.

Size: 1130 × 1130 × 1950 mm
Box size 1: (2×) 1170 × 570 × 150 mm
Box size 2: (1×) 630 × 210 × 425 mm

CAN BE EASILY WHEELED TO DIFFERENT PLACES

62030 MOBILE KITCHEN

The outdoor kitchen will provide hours of fun role-play activities for the children and turn them into gourmet chefs. They can cook on the four stove plates and bake in the oven. The solid kitchen is made from high-quality and weather-resistant wood. It stands secure due to the robust construction. The kitchen's natural and modern design fits in every kindergarten. The large work-spaces are perfect for group play and the kitchen is accessible from all sides. All surfaces of the kitchen can be wiped down and are easy to clean. It can be easily wheeled to different places indoors or outdoors.

62010 MOBILE GREENHOUSE

The greenhouse enables children to discover the botanical world by becoming gardeners themselves. They can plant flowers, spices, vegetables and other things. It is exciting and educative for children to see something grow from a seed. The children learn to take on responsibility and consider the needs of others when caring of the plants. The greenhouse is also the ideal tool to educate children on ecological and eco-sustainable thinking and behaviour. It can be easily wheeled to different places indoors or outdoors due to its practical wheels depending on the weather and season. The transparent top, which can be opened and closed easily with a zipper, makes the greenhouse easily accessible and adaptable to all weather conditions.

Size: 1090 × 600 × 1150 mm
Box size: 950 × 250 × 640 mm

VERY WEATHER-RESISTANT
CAN BE EASILY WHEELED TO DIFFERENT PLACES

62020 MOBILE WATER-TABLE

The beleduc water table offers many possibilities for outdoor roleplay and a first contact with science. Children love to play and experiment with water and observe how it behaves in different situations. They can for example find out how water changes directions when they redirect its flow. The children can interact easily due to the transparent design which offers a great possibility for group roleplay. The water table can be easily moved to different places due to its practical wheels. Included accessories: 2 tubes, 2 funnels, 2 blue seesaws, 3 water animals with function.

Size: 1160 × 575 × 1000 mm
Box size 1: 970 × 170 × 760 mm
Box size 2: 570 × 260 × 440 mm

INCREDIBLY MANOEUVRABLE

FOOTHOLD AND HANDLES FOR
MAXIMUM SAFETY

64350 BUGGY

The Outdoor Buggy by beleduc is the best transportation for all loved dolls and cuddly toys. Ideal for mother-child-role play which children love. Due to its durability (up to 50 kg) children can also drive each other around on the playground. Our Buggy is very agile due to the rotatable backwheels and small turns are no problem. Amazing playing fun for both driver and passenger is guaranteed. In smaller, tight turns the handles on the sides offer great stability and the one being pushed feels as if they are directing the Buggy themselves.

Size: 600 × 630 × 475 mm

64370 MOBILE SCALE

The new scale by beleduc in our tried-and-tested TopPlay design is a classic measuring instrument and perfect for children aged 4 years and older. The ideal educational aid to combine playing with and learning about weight. With this measuring scale children can develop an understanding for weight and balance. The two transparent buckets enable children to realise the connection between fill volume and weight. Different buckets can be used simply by adjusting the balancing weights. Moving the scale around on the playground and indoors is no problem due to an integrated handle and wheels.

Box size: 1140 × 730 × 185 mm

THE EXPERT FOR CHILDREN'S VEHICLES FOR OVER 25 YEARS

By using our vehicles we support the children's urge to move. Incidentally the child develops motor skills and endurance.

MOVING INNOVATION – SEAL FOR A UNIQUE EDUCATIONAL AND MOVING QUALITY

We have had our children's vehicles scientifically tested. With the awarded seal of quality "Movement & Innovation" we offer an orientation regarding the special value of **moving, learning and playing**. Prof. Dr. Harald Lange from the university of Würzburg works together with scientists, therapists, educational experts and athletes to evaluate educational aspects in movement research because **innovative play and movement equipment** are playing a central role for the early childhood development. This seal of approval provides you a practical decision support for the selection of an appropriate children's vehicle.
